7.4. Further information on International Competition

8. ENTRY LEAGUE

Appendix A: Kicker Power Measuring Procedures

These are the Draft Soccer rules for RoboCupJunior 2026. They are released by the RoboCupJunior Soccer League Committee. The English version of these rules has priority over any translations. 这些是 RoboCupJunior 2026 的足球选秀规则。它们由 RoboCupJunior Soccer League 委员会发布。这些规则的英文版本优先于任何翻译。

Teams are advised to check the RoboCupJunior Soccer site ^[1] and Soccer forum ^[2] for procedures and requirements for the international competition. Instead ask tournament organizers for local, regional and super-regional competitions. Each team is responsible for making sure they have the correct rules for each competition. Teams should ask for clarifications on the Forum where necessary. ^[3] 建议球队查看 RoboCupJunior Soccer 网站 ^[1] 和足球论坛 ^[2] 有关 国际比赛。相反，向比赛组织者询问当地的情况， 区域和超区域比赛。每个团队都有责任 确保他们为每场比赛制定正确的规则。团队 应在必要时要求论坛作出澄清。 ^[3]

Teams are encouraged to get in touch with the RoboCupJunior community on our Discord. Show what you’re working on, ask questions or join the weekly discussions on future rules and league design. ^[4] You can also reach the Soccer League Committee directly via email ^[5] 我们鼓励团队在我们的 Discord 上与 RoboCupJunior 社区取得联系。展示您正在做的事情、提出问题或加入有关未来规则和联赛设计的每周讨论。 ^[4] 您也可以通过电子邮件直接联系足球联盟委员会 ^[5]

field_with_two_teams.jpg

Figure 1. Two teams of two robots with an orange ball on a RoboCupJunior Soccer field. 图 1.两队由两个机器人组成，在 RoboCup 青少年足球场上拿着一个橙色的球。

Preface 前言

In the RoboCupJunior Soccer challenge, teams of young engineers design, build, and program two fully autonomous mobile robots to compete against another team in matches. The robots must detect a ball and score into a color-coded goal on a special field that resembles a human soccer field.

在 RoboCupJunior Soccer 挑战赛中，年轻工程师团队设计、建造和编程两个完全自主的移动机器人，以便在比赛中与另一支球队竞争。机器人必须检测到球并在类似于人类足球场的特殊场地上射入颜色编码的球门。

To be successful, participants must demonstrate skill in programming, robotics, electronics and mechatronics. Teams are also expected to contribute to the advancement of the community as a whole by sharing their discoveries with other participants and by engaging in good sportsmanship, regardless of culture, age or result in the competition. All are expected to compete, learn, have fun, and grow. 要取得成功，参与者必须展示编程、机器人、电子和机电一体化方面的技能。团队还应通过与其他参与者分享他们的发现并参与良好的体育精神，为整个社区的进步做出贡献，无论文化、年龄或比赛结果如何。 所有人都应该竞争、学习、享受乐趣和成长。

RoboCupJunior Soccer consist of two sub-leagues: **Soccer Vision (formerly Soccer Open)** [6] and **Soccer Infrared (formerly Soccer Lightweight)** [7]. These rules apply for both sub-leagues. There are three main differences between the two leagues. RoboCupJunior Soccer 由两个子联赛组成：**Soccer Vision (原 Soccer Open)** [6] 和 **Soccer Infrared (原 Soccer Lightweight)** [7]。这些规则适用于两个子联赛。两个联赛之间有三个主要区别。

- **Soccer Infrared** [8] is played using a special ball that emits an IR signal and robots may weigh up to **1.5 kg** [9], and be up to 22cm in size. **足球红外线** [8] 使用发射红外信号的特殊球进行比赛，机器人的重量可达 **1.5 公斤** [9]，尺寸可达 22 厘米。
- **Soccer Vision** [10] is played using a brightly colored orange golf ball, robots have no weight restriction and may be up to 18cm in size. **Soccer Vision**[10] 使用颜色鲜艳的橙色高尔夫球进行比赛，机器人没有重量限制，尺寸可达 18 厘米。

A large part of the overall ranking (for the international tournament, other tournaments operate differently) is determined by the judged categories. There are points for documentation, interview performance etc. [11]

总排名的很大一部分（对于国际赛事，其他锦标赛的运作方式不同）由评委决定 类别。文档、内部性能等都有点。 [11]

If you would like to start with RoboCupJunior Soccer, please contact the organizer of your regional RoboCupJunior competition and ask them about [Rule 8, “ENTRY LEAGUE”](#). 如果您想开始参加 RoboCupJunior Soccer，请联系您所在地区的 RoboCupJunior 比赛的组织者，并向他们询问规则 [8“ENTRY LEAGUE”](#)。

Unless specified otherwise, all parts of these rules are released under the terms of the Creative Commons Attribution-ShareAlike License. 除非另有说明，否则这些规则的所有部分均根据知识共享署名-相同方式共享许可的条款发布。

1. RoboCupJunior International 2026 General Rules

1. RoboCupJunior International 2026 一般规则

These rules apply to the international RoboCupJunior competition. However, regional, SuperRegional, and local tournaments may have variations or adaptations to these rules to suit their specific competition needs. It is important to check with the organizers of the tournaments you are participating in to confirm which exact rules will be in use. 这些规则适用于国际 RoboCupJunior 比赛。然而，地区、超级地区和本地锦标赛可能会对 these 规则进行变化或调整，以满足其特定的比赛需求。请务必咨询您正在参加的锦标赛的组织者，以确认将使用哪些确切规则。

If teams are unsure about any aspects of the General Rules or specific League Rules, they are encouraged to inquire via the official RoboCupJunior Forum for clarification: <https://junior.forum.robocup.org/> 如果团队不确定一般规则或特定联赛规则的任何方面，我们鼓励他们通过官方 RoboCupJunior 论坛进行查询以进行澄清：<https://junior.forum.robocup.org/>

For questions regarding any of the rules or RoboCupJunior in general, teams can also reach out to the RoboCupJunior community through the [official Discord Server](#). 对于有关任何规则或 RoboCupJunior 的问题，团队还可以通过[官方 Discord 服务器](#)联系 RoboCupJunior 社区。

1.1. Team Requirements 1.1. 团队要求

1.1.1. Team Size 1.1.1. 团队规模

Minimum Team Size: Teams must consist of at least 2 members. 最小团队规模：团队必须由至少 2 名成员组成。

Maximum Team Size: 最大团队规模：

- Soccer and Rescue Leagues: 4 members. 足球和救援联盟：4 名成员。
- OnStage League: 5 members. OnStage League：5 名成员。

Regional and SuperRegional competitions may define their own team sizes depending on their venue capacity and regional variations. Teams attending the International competition will only be able to have the maximum number of registered participants in the qualifying team. 区域和超级区域比赛可能会根据其场地容量和区域差异来定义自己的团队规模。参加国际比赛的队伍只能在预选赛队伍中拥有最大数量的注册参赛者。

Shared Members and Robots: No team member(s) or robot(s) may be shared between teams. 共享成员和机器人：团队之间不得共享任何团队成员或机器人。

1.1.2. Team Supervision 1.1.2. 团队监督

Junior Mentor Requirement: Each Junior team must have at least one Junior Mentor registered and attending with the team. 初级导师要求：每个初级团队必须至少有一名初级导师注册并参加该团队。

Mentors and Parent/Chaperones are responsible for supervising their teams and maintain a duty of care/well being for their team members, as appropriate for their home region’s regulations. Any concerns regarding team member welfare should be brought to the attention of the event organizers immediately.

导师和家長/監護人負責監督他們的團隊，並根據其所在地區的规定對團隊成員承擔照顧/福祉的義務。任何有關團隊成員福利的疑慮都應立即提請活動組織者注意。

The Junior Mentor is expected to be present during all official competition events with their team. They must not interact in an imposing manner with teams, robots, judges, or the judging process. Any incident considered inappropriate will be handled by the event organizers and may lead to disciplinary actions.

初級導師預計將與他們的團隊一起參加所有正式比賽活動。他們不得以強勢的方式與團隊、機器人、評委或評審過程互動。任何被認為不適當的事件將由活動組織者處理，並可能導致紀律處分。

1.1.3. Age Requirements 1.1.3. 年齡要求

Junior Student Members: Must be between 14 and 19 years old as of July 1st of the competition year.

初中學生會員：截至比賽年度的 7 月 1 日，年滿 14 至 19 歲。

Junior Mentors and Parent/Chaperones: Must be 19 years or older as of July 1st of the competition year.

初級導師和家長/監護人：截至比賽年度的 7 月 1 日，必須年滿 19 歲。

1.1.4. Team Members 1.1.4. 團隊成員

Entry Leagues: RoboCupJunior Entry leagues and other "Primary" divisions (where minimum age may vary) are not run at the international competition but feature in many regions and SuperRegional tournaments.

入門聯賽：RoboCup 青少年入門聯賽和其他“初級”組別（最低年齡可能有所不同）不在國際比賽中進行，而是在許多地區和超級地區錦標賽中進行。

Technical Roles: Every team member must have a defined technical role (mechanical/design, electrical/sensing, software etc.) and should be able to explain their role during technical judging.

技術角色：每個團隊成員都必須具有明確的技術角色（機械/設計、電氣/傳感、軟件等），並且應該能夠在技術評審中解釋他們的角色。

1.2. International Team Qualification Process 1.2. 國際隊資格賽流程

- To qualify for the International competition, each region’s Regional Representative will complete the Slot Allocation Process at the start of the Competition year. Regional Representatives can be found at the [Official Website](#). 為了獲得參加國際比賽的資格，每個地區的区域代表將在比賽年度開始時完成名額分配流程。区域代表可以在[官方網站上](#)找到。
- After the region’s local qualifying tournament, the Regional Representative will assign slots. Once confirmed by the RoboCupJunior organizers, the qualified teams will be invited to register through the official RoboCup Federation registration system. 在該地區的當地資格賽結束後，区域代表將分配名額。一旦獲得 RoboCupJunior 主辦方的確認，將邀請獲得資格的隊伍通過 RoboCup 聯合會官方註冊系統進行註冊。
- The qualification process differs depending on the size of each region, but slot allocation must strongly reflect results from regional competitions. 資格賽過程因每個地區的規模而異，但名額分配必須強烈反映區域比賽的結果。
- If a region does not use or releases its allocated slots, Regional Representatives may request additional slots during a later stage of the allocation process. 如果一個区域未使用或釋放其分配的時段，区域代表可能會在分配過程的後期階段請求額外的時段。

1.3. Robot Requirements 1.3. 機器人要求

1.3.1. Robot Communication 1.3.1. 機器人通信

Permitted Communication: Communication between robots during gameplay is allowed as long as it uses the 2.4GHz spectrum and its power output does not exceed 100 mW EIRP (Effective Isotropic Radiated Power) under any circumstances.

允許的通信：只要機器人使用 2.4GHz 頻譜並且在任何情況下其功率輸出都不超過 100 mW EIRP（有效各向同性輻射功率），就允許在遊戲過程中進行通信。

Responsibility: Teams are responsible for managing their robot communication. Spectrum availability is not guaranteed.

責任：團隊負責管理他們的機器人通信。不保證頻譜可用性。

Component Communication: Communication between components of the same robot is permitted.

組件通信：允許同一機器人的組件之間進行通信。

League Adaptability: Each league may modify the robot communication rules to ensure they meet their specific requirements.

聯賽適應性：每個聯賽可能會修改機器人通信規則，以確保它們滿足其特定要求。

1.3.2. Safety and Power Requirements 1.3.2. 安全和電源要求

Electrical Power:

電力：

- Robots must not use mains electricity. 機器人不得使用市電。
- Maximum allowed voltage: 48V DC or 25V AC RMS (Root Mean Square). 最大允許電壓：48V DC 或 25V AC RMS（均方根）。

- Voltage must be easily measured during inspections, and measuring points must be covered for safety or designed with safety considerations in place.
在检查过程中必须易于测量电压，并且必须覆盖测量点以确保安全或在设计时考虑到安全因素。

Battery Safety: 电池安全：

- Lithium batteries must be stored in safety bags, and charging must be supervised by team members in competition areas.
锂电池必须存放在安全袋中，充电必须在比赛区域由队员监督。
- Teams must follow safety protocols, including battery fire handling and evacuation procedures.
团队必须遵守安全协议，包括电池火灾处理和疏散程序。

Robot Safety Design:

机器人安全设计：

- Power Management: Secure batteries, safe wiring, and emergency stop functionality.
电源管理：安全电池、安全接线和紧急停止功能。
- Mechanical Safety: No sharp edges, pinch points, or other hazards. Actuators must be appropriate for the robot's size and function.
机械安全：没有锋利的边缘、夹点或其他危险。执行器必须适合机器人的尺寸和功能。
- Hazardous Behavior: Teams must report potentially dangerous robot behaviors at least two weeks before a RoboCupJunior event.
危险行为：团队必须在 RoboCupJunior 活动前至少两周报告潜在危险的机器人行为。

1.4. Documentation and Sharing Requirements

1.4. 文档和共享要求

1.4.1. RoboCupJunior Team Posters

1.4.1. RoboCup 青少年队海报

Purpose: Posters are a tool for sharing robot designs and insights with judges, teams, and the public. Posters will be hung in public competition areas in the venue and digital copies or photographs will be shared by RoboCupJunior after the competition.

目的：海报是与评委、团队和公众分享机器人设计和见解的工具。海报将悬挂在场馆的公共比赛区域，赛后 RoboCupJunior 将分享数字副本或照片。

Size: Posters must be no larger than A1 size (60 x 84 cm).

尺寸：海报不得大于 A1 尺寸 (60 x 84 厘米)。

Content: Posters should summarize design documents and present the robot's capabilities in an engaging format.

内容：海报应总结设计文档并以引人入胜的格式展示机器人的功能。

1.4.2. Technical Description Video (See League Documentation)

1.4.2. 技术描述视频（参见联盟文档）

Content: 内容：

- Robotic Demonstration: Show fully functional robot systems to highlight technical aspects.
机器人演示：展示功能齐全的机器人系统，突出技术方面。
- Design Process: Explain design choices and team problem-solving approaches.
设计过程：解释设计选择和团队解决问题的方法。
- Presentation: Clear and high-quality, explaining innovative or unusual techniques.
演示文稿：清晰、高质量，解释创新或不寻常的技术。
- Innovation & Sustainability: Highlight new technologies and sustainable practices.
创新与可持续发展：突出新技术和可持续实践。

Submission: Guidelines will specify video length and deadlines per league.

提交：指南将指定每个联赛的视频长度和截止日期。

1.4.3. Sharing Team Resources

1.4.3. 共享团队资源

Sharing: Materials submitted by teams as part of the documentation submission will be shared on GitHub repositories for the leagues:

<https://github.com/robocup-junior>

共享：团队作为文档的一部分提交的材料提交的内容将在联赛的 GitHub 存储库上共享：<https://github.com/robocup-junior>

Credit: Teams must credit creators of external work and adhere to licensing rules. The focus should remain on personal growth and learning.

信用：团队必须归功于外部作品的创建者并遵守许可规则。重点应该仍然是个人成长和学习。

1.4.4. Plagiarism Guidelines

1.4.4. 抄袭指南

External Code Use: Teams are allowed to use external code but must credit the original creators.

外部代码使用：允许团队使用外部代码，但必须注明原始创建者。

Learning Priority: Teams should prioritize learning and not use complete solutions from others. Always pay attention to licensing rules.

学习优先级：团队应优先考虑学习，而不是使用他人的完整解决方案。始终注意许可规则。

1.4.5. Bill of Materials (BOM)
1.4.5. 物料清单 (BOM)

Submission: Teams must submit a BOM (Bill of Materials) listing major components and materials used.
提交 : 团队必须提交列出主要组件和所用材料的 BOM (物料清单)。

Details: The BOM must include:
详细信息 : BOM 必须包括 :

- Component name/description (e.g., part number).
组件名称/描述 (例如, 零件号)。
- Supplier/source of the component (including PCBs/machined components).
组件的供应商/来源 (包括 PCB/机加工组件)。
- Status (new/reused). 状态 (新的/重复使用)。
- Kit or custom-built. 套件或定制。
- Price. 价格。

Template: A standardized BOM template will be provided with the league documentation submissions for the international competition.
模板 : 国际比赛的联赛文件提交将提供标准化的 BOM 模板。

1.5. Spirit and Behavior
1.5. 精神与行为

1.5.1. Behavior 1.5.1. 行为

All participants are expected to behave themselves and be considerate and polite especially but not only towards other participants, volunteers, referees and organizers of all Junior and Major Leagues as well as the host venue.
所有参与者都应表现良好, 体贴和礼貌, 尤其是对所有青少年和大联盟以及主办场地的其他参与者、志愿者、裁判和组织者。

1.5.2. Code of Conduct
1.5.2. 行为准则

All organisers, volunteers, team members, mentors, supporters and visitors must abide by the RoboCup Federation Code of Conduct. Any instances where, a situation occurs that does not meet the code of conduct must be reported to a RoboCup Federation organisation member and will be investigated.
所有主办单位、义工、队员、导师、支持者及访客均须遵守《机械人杯联合会行为守则》。任何不符合行为准则的情况都必须报告给 RoboCup 联合会组织成员, 并将接受调查。

1.5.3. Mentoring and Onsite Assistance
1.5.3. 指导和现场协助

Support from other teams, mentors, teachers, parents, sponsors, internet communities etc. is a core part of how teams learn and grow.
来自其他团队、导师、老师、家长、赞助商、互联网社区等的支持是团队学习和成长的核心部分。

To ensure fair competition and maximize learning it is required that none of the support they receive does the work of competing for the team. A good indication is the team's ability to explain not only what their robots' components do but also how they do it.
为了确保公平竞争和最大化学习, 要求他们获得的任何支持都不能为团队竞争。一个很好的迹象是, 该团队不仅能够解释机器人组件的作用, 还能够解释他们是如何做到的。

1.5.4. Teams Onsite 1.5.4. 团队现场

- During the competition, only the official team members (maximum 4/5 depending on league) can represent the team at registration, setup-day, and have access to the competition areas for rounds and interviews.
比赛期间, 只有正式团队成员 (最多 4/5, 具体取决于联赛) 才能代表团队参加注册、准备日, 并可以进入比赛区域进行回合和面试。
- There must be at least 2 team members on-site, unless a team can present evidence of extenuating circumstances, including proof of travel for other team members. Teams where only one participant presents at the venue will be able to compete, but will not be eligible for finals or awards.
现场必须至少有 2 名团队成员, 除非团队能够提供情有可原的证据, 包括其他团队成员的旅行证明。只有一名参赛者在场地出场的队伍可以参加比赛, 但没有资格获得决赛或奖项。
- It is the teams' responsibility to ensure that team member are present at the correct time and location for all scheduled activities.
团队有责任确保团队成员在正确的时间和地点参加所有预定的活动。
- Teams are not allowed to communicate with or receive help virtually from external parties with the intention of impacting the team's performance during the competition areas. Virtually communicating includes but is not limited to extended phone calls, video calls, remote desktop control etc.
团队不得以影响团队在比赛区域中的表现而与外部各方进行虚拟沟通或接受外部各方的帮助。虚拟通信包括但不限于延长电话、视频通话、远程桌面控制等。
- Any team found to be in breach of these rules may be subject to disciplinary action.
任何被发现违反这些规则的球队都可能受到纪律处分。
- Teams are recommended to seek help from other teams, or organizers if they are struggling with any issues onsite.
建议团队向其他团队寻求帮助, 如果他们在现场遇到任何问题, 请向组织者寻求帮助。

1.5.5. Violations 1.5.5. 违规行为

Teams, Team Mentors/Supporters or Team Members that repeatedly conduct themselves in an unacceptable way or in violation to the General or League Rules may be disqualified from the tournament and asked to leave the venue.
屡次以不可接受的方式或违反一般规则或联赛规则的球队、团队导师/支持者或团队成员可能会被取消比赛资格并被要求离开场地。

The Soccer league is planning to increase the team size to 5. For logistical reasons only 4 members per team can be guaranteed for the Incheon competition as of 2025-09-17. We recommend this team size for SuperRegional and where organizers find it practical also regional and local competitions. Ask check with the organizers for each tournament you attend what exact rules they are using - tournament organizers are encouraged to adapt rules to fit with their situation.
足球联盟计划将球队规模增加到 5 人。出于后勤原因，截至 2025-09-17 仁川比赛，每支球队只能保证 4 名成员。我们建议将这种团队规模用于 SuperRegional，在组织者认为实用的情况下，也可以进行区域和地方比赛。询问 与组织者 检查您参加的每场比赛的确切规则 - 鼓励锦标赛组织者调整规则以适应他们的情况。

Changes from the 2025 RoboCupJunior Soccer Rules 2025 年 RoboCup 青少年足球规则的变化

The rule changes developed by the Soccer League Committee in cooperation with the RoboCup Junior Soccer Community (please continue to post ideas for the future at any time) aim to improve gameplay.
足球联盟委员会与 RoboCup 青少年足球社区合作制定的规则变更（请随时继续发布对未来的想法）旨在改进游戏玩法。

Detailed changes are listed below and link to the corresponding place in the rules.
下面列出了详细的更改，并链接到规则中的相应位置。

- [Added " If pushing and multiple defense happen at the same time the referees will call and resolve the pushing situation first, then the multiple defense."](#)
添加“如果推和多重防守同时发生，裁判将先判罚并解决推球情况，然后是多重防守。”
- [Added "will call "pushed out""](#)
添加了“将调用”推出”
- [Added "Starting this year \(2026\), Soccer Infrared is using a new IR Ball. The key difference with this ball is the size change from 74mm to 42mm diameter, which is the same size as the Vision League golf ball."](#)
补充道：“从今年（2026 年）开始，足球红外线将使用新的红外球。与这款球的主要区别在于尺寸从直径 74 毫米变化到 42 毫米，与 Vision League 高尔夫球的尺寸相同。”
- [Added "This ball is Open Source, so anyone can produce one from the files & instructions on the GitHub Page here: https://github.com/robocup-junior/ir-golf-ball ."](#)
添加了“这个球是开源的，所以任何人都可以从 GitHub 页面上的文件和说明中生成一个：https://github.com/robocup-junior/ir-golf-ball。”
- [Added "If you or someone you know can help by making or distributing balls for one or more regions the Soccer Committee is interested in helping to make that happen and listing you as a source for balls on the official website. Please get in touch via Forum, Discord or Email"](#)
补充说：“如果您或您认识的人可以通过为一个或多个地区制作或分发球来提供帮助，足球委员会有兴趣帮助实现这一目标，并在官方网站上将您列为球的来源。请通过论坛、Discord 或电子邮件与我们联系”
- [Added "Entry Leagues will continue to use the large infrared ball."](#)
添加了“入门联赛将继续使用大型红外球。”
- [Added "Being 3mm below the size limit and 50g below the weight limit will usually make inspections go more smoothly."](#)
补充说：“低于尺寸限制 3 毫米和低于重量限制 50 克通常会使检查更加顺利。”
- [Changed "Soccer Open" to "Soccer Vision \(formerly Soccer Open\)"](#)
将“Soccer Open”更改为“Soccer Vision（原 Soccer Open）”
- [Changed "Soccer Lightweight" to "Soccer Infrared \(formerly Soccer Lightweight\)"](#)
将“Soccer Lightweight”更改为“Soccer Infrared（原 Soccer Lightweight）”
- [Changed "Soccer Lightweight" to "Soccer Infrared"](#)
将“Soccer Lightweight”更改为“Soccer Infrared”
- [Changed "1.4 kg" to "1.5 kg"](#)
将“1.4 kg”更改为“1.5 kg”
- [Changed "Soccer Open" to "Soccer Vision"](#)
将“足球公开赛”更改为“足球愿景”
- [Changed "only the World Championships, starting in Brazil 2025," to "at least at the world championships \(ask other competition organizers\)"](#)
将“仅 2025 年从巴西开始的世锦赛”更改为“至少在世锦赛上（询问其他比赛组织者）”
- [Changed "Lightweight" to "Infrared"](#)
将“轻量级”更改为“红外线”
- [Changed "Open" to "Vision"](#)
将“打开”更改为“愿景”
- [Changed "Open" to "Vision"](#)
将“打开”更改为“愿景”
- [Changed "Lightweight" to "Infrared"](#)
将“轻量级”更改为“红外线”
- [\[substitution-11\] \[替换-11\]](#)
- [\[substitution-12\] \[替换-12\]](#)
- [Changed "1400 g" to "1500g"](#)
将“1400 g”更改为“1500g”
- [Changed "3.0 cm" to "1.5 cm"](#)
将“3.0 cm”更改为“1.5 cm”
- [Changed "ask to see a sample kick" to "test the kicker power"](#)

2. GAMEPLAY 2. 游戏玩法

2.1. Game procedure and length of a game

2.1. 游戏程序和游戏长度

RCJ Soccer games consist of two teams of robots playing soccer against each other. Each team has two autonomous robots. The game will consist of two halves. The duration of each half is 10-minutes. There will be a 5-minute break in between the halves.

RCJ 足球比赛由两队机器人组成，相互踢足球。每个团队都有两个自主机器人。比赛将由两个半场组成。每半场的时长为 10 分钟。半场之间将有 5 分钟的休息时间。

Teams are expected to be at the field 5 minutes before their game starts. Being at the inspection table does not count in favor of this time limit. Teams that are late for the start of the game may be penalized one goal per 30 seconds at the referee’s discretion.

球队预计将在比赛开始前 5 分钟到达球场。在检查台上不计入这个时限。迟到比赛开始的球队可能会被罚每 30 秒一球 由裁判自行决定。

The final game score will be trimmed so that there is at most 10-goal difference between the losing and the winning team. 最终比赛比分将被削减，因此失败的球队和获胜的球队之间最多有 10 个球的差距。

2.2. Pre-match meeting 2.2. 赛前会议

At the start of the first half of the game, a referee will toss a coin. The team mentioned first in the draw shall call the coin. The winner of the toss can choose either which end to kick towards, or to kick off first. The loser of the toss chooses the other option. After the first half, teams switch sides. The team not kicking off in the first half of the game will kick off to begin the second half of the game.

上半场比赛开始时，裁判会抛硬币。抽奖中首先提到的球队将领取硬币。掷球的获胜者可以选择踢向哪一端，或者先踢球。掷骰子的失败者选择另一个选项。上半场比赛结束后，球队换边。上半场比赛未开球的球队将开始下半场比赛。

During the pre-match meeting the referee(s) may check whether the robots are capable of playing (i.e., whether they are at least able to follow and react to the ball). If none of the robots is capable of playing, the game will not be played and zero goals will be awarded to both teams.

在赛前会议期间，裁判可以检查机器人是否有能力比赛（即它们是否至少能够跟球并做出反应）。如果没有一个机器人能够上场，比赛将不会进行，两支球队都将获得零进球。

2.3. Kick-off 2.3. 开球

Each half of the game begins with a kick-off. All robots must be located on their own side of the field. All robots must be halted. The ball is positioned by a referee in the center of the field.

比赛的每半场都以开球开始。所有机器人必须位于场地的一侧。必须停止所有机器人。球由裁判定位在场地中央。

The team kicking off places their robots on the field first. 开球的团队首先将他们的机器人放在场上。

The team not kicking off will now place their robots on the defensive end of the field. All robots on the team not kicking off must be at least 30 cm away from the ball (outside of the center circle).

未开球的球队现在将把他们的机器人放在场地的防守端。球队中所有未开球的机器人必须距离球至少 30 厘米（中心圈外）。

Robots cannot be placed out of bounds. Robots cannot be repositioned once they have been placed, except if the referee requests to adjust their placement to make sure that the robots are placed properly within the field positions.

机器人不能被放置在边界之外。机器人一旦放置就不能重新定位，除非裁判要求调整其位置以确保机器人正确放置在场地理位置内。

On the referee’s command (usually by whistle), all robots will be started immediately. Any robots that are started early will be removed by the referee from the field and deemed damaged.

根据裁判的命令（通常通过哨子），所有机器人将立即启动。任何提前启动的机器人将被裁判带离场地并被视为损坏。

Before a kick-off, all damaged or out-of-bounds robots are allowed to return to the playing field immediately if they are ready and fully functional. 在开球前，所有损坏或出界的机器人如果准备就绪并功能齐全，则可以立即返回比赛场地。

2.3.1. Neutral kick-off 2.3.1. 中立开球

A neutral kick-off is the same as the one described in [Rule 2.3, “Kick-off”](#) with a small change: all robots must be at least 30 cm away from the ball (outside of the center circle).

中立开球与[规则 2.3“开球”](#)中描述的相同，但略有改动：所有机器人必须距离球至少 30 厘米（中心圈外）。

2.4. Scoring 2.4. 评分

A goal is scored when the ball strikes or touches the back wall of the goal. Goals scored by any robot have the same end result: they give one goal to the team on the opposite side. After a goal, the game will be restarted with a kick-off from the team who was scored against.

当球击中或触及球门后墙时，即为进球。任何机器人的进球都有相同的最终结果：它们会给对面的球队一个进球。进球后，比赛将重新开始，进球的球队将开球。

2.5. Ball movement 2.5. 球的移动

A robot cannot hold a ball. Holding a ball is defined as taking full control of the ball by removing all of degrees of freedom. Examples for ball holding include fixing a ball to the robot’s body, surrounding a ball using the robot’s body to prevent access by others, encircling the ball or somehow trapping the ball with any part of the robot’s body. If a ball does not roll while a robot is moving, it is a good indication that the ball is

trapped.
机器人不能握住球。持球被定义为通过消除所有自由度来完全控制球。持球的例子包括将球固定在机器人的身体上、使用机器人的身体包围球以防止其他人接近、包围球或以某种方式用机器人身体的任何部位困住球。如果机器人移动时球没有滚动，则表明球被困住了。

The only exception to holding is the use of a rotating drum (a "dribbler") that imparts dynamic back spin on the ball to keep the ball on its surface. 持球的唯一例外是使用旋转鼓（“运球器”），它赋予球动态后旋，以将球保持在表面上。

Other players must be able to access the ball.
其他球员必须能够接球。

The ball needs to stay within the bounds of the field, as defined by the walls. If a robot moves the ball outside of the field (that is, beyond the walls or above their height), it is deemed damaged. ([Rule 2.9, “Damaged robots”](#))
球需要保持在场地范围内，如墙壁所定义。如果机器人将球移动到场外（即越过墙壁或高于其高度），则视为损坏。（[细则 2.9，“损坏的机器人”](#)）

Any robot must approach and touch the ball when it is placed on the nearest neutral spot. It must do this before lack of progress is called. When on its own side of the field, any robot must be able to move the ball from the nearest neutral spot to the opponent’s side of the field. If a specific robot does not act this way, referees may deem it damaged at their discretion. (See [Damaged Robots](#).) This rule does not apply if the robot is hindered from detecting or playing the ball by the opponent.
当球放置在最近的中立点时，任何机器人都必须接近并触摸球。它必须在缺乏进展之前这样做。当在场地的自己一侧时，任何机器人都必须能够将球从最近的中立点移动到场地的对手一侧。如果特定机器人没有这样做，裁判可能会自行决定认为它已损坏。（参见[损坏的机器人](#)。如果机器人被对手阻碍检测或打球，则此规则不适用。

2.6. Inside the Penalty Area (Pushing and Multiple defense)

2.6. 禁区内（推和多重防守）

No robots are allowed to be fully inside the penalty area. As the penalty areas are marked with a white line, the Out of Bounds rule applies. ([Rule 2.8, “Out of bounds”](#))
任何机器人都不允许完全进入禁区内。由于罚球区用白线标记，因此适用出界规则。（[规则 2.8，“越界”](#)）

If two robots from the same team are at least partially in a penalty area, the robot further from the ball will be moved to the furthest unoccupied neutral spot immediately. If this happens repeatedly, a robot may be deemed damaged at referee’s discretion. ([Rule 2.9, “Damaged robots”](#))
如果来自同一队伍的两个机器人至少部分在禁区内，则离球较远的机器人将立即被移动到最远的空位。如果这种情况反复发生，裁判可能会自行决定机器人损坏。（[细则 2.9，“损坏的机器人”](#)）

If an attacking and a defending robot touch each other while at least one of them is at least partially inside the penalty area, and at least one of them has physical contact with the ball, this may be called "pushing" at the referee’s discretion. In this case, the ball will be moved to the furthest unoccupied neutral spot immediately.
如果进攻机器人和防守机器人在至少一个机器人至少部分在禁区内时相互接触，并且其中至少一个机器人与球有身体接触，则裁判可自行决定将其称为“推搡”。在这种情况下，球将立即移动到最远的空位。

If a goal is scored as a result of a "pushing" situation, it will not be granted.
如果进球是由于“推”情况而进球的，则不会被授予。

*** If pushing and multiple defense happen at the same time the referees will call and resolve the pushing situation first, then the multiple defense.***
*** 如果推和多重防守同时发生，裁判将先判罚并解决推球情况，然后是多重防守。**

2.7. Lack of progress

2.7. 缺乏进展

Lack of progress occurs if there is no progress in the gameplay for a reasonable period of time and the situation is not likely to change. Typical lack of progress situations are when the ball is stuck between robots, when there is no change in ball and robot’s positions, or when the ball is beyond detection or reach capability of all robots on the field.
如果游戏在合理的时间内没有进展并且情况不太可能改变，则会出现缺乏进展。典型的缺乏进度情况是球卡在机器人之间，当球和机器人的位置没有变化时，或者当球超出场上所有机器人的检测或能力范围时。

After a visible and loud count ^[12], a referee will call lack of progress and will move the ball to the nearest unoccupied neutral spot. If this does not solve the lack of progress, the referee can call lack of progress again and move the ball to a different neutral spot in the same way.
在明显而响亮的计数 ^[12] 之后，裁判将宣布缺乏进展，并将球移动到最近的空位。如果这不能解决缺乏进展的问题，裁判可以再次判罚缺乏进展，并以同样的方式将球移动到不同的中立点。

2.8. Out of bounds

2.8. 出界

If a robot touches a wall or moves completely into the penalty area it will be called for being out of bounds. When this situation arises, the robot is removed from the field for a one-minute penalty. There is no time stoppage for the game itself. The robot is allowed to return if a kick-off occurs before the penalty has elapsed.
如果机器人触墙或完全进入禁区，则将被吹罚出界。当出现这种情况时，机器人将被带离场地，罚一分钟。游戏本身没有时间暂停。如果机器人在点球结束前开球，则允许机器人返回。

The one-minute penalty starts when the robot is removed from play. Furthermore, any goal scored by the penalized team while the penalized robot is on the field will not be granted. Out-of-bounds robots can be fixed if the team needs to do so, as described in [Rule 2.9, “Damaged robots”](#).
当机器人被移出比赛时，一分钟的处罚开始。此外，被罚的机器人在场上时被罚的球队打进的任何进球都不会被授予。如果团队需要，可以修复出界机器人，如[规则 2.9“损坏的机器人”](#) 中所述。

After the penalty time has passed, robot will be placed on the unoccupied neutral spot furthest from the ball, facing its own goal.
罚球时间过后，机器人将被放置在距离球最远的空置中立点，面对自己的球门。

A referee can waive the penalty if the robot was accidentally pushed out of bounds by an opposing robot. In such a case, the referee **will call "pushed out"** and may slightly push the robot back onto the field.
如果机器人被对方机器人意外推出界外，裁判可以放弃处罚。在这种情况下，裁判**会判罚“推出”**，并可能将机器人轻轻推回场上。

2.9. Damaged robots 2.9. 损坏的机器人

If a robot is damaged, it has to be taken off the field and must be fixed before it can play again. Even if repaired, the robot must remain off the field for at least one minute or until the next kick-off is due.
如果机器人损坏，必须将其移出球场并修复后才能再次比赛。即使修复了，机器人也必须离开球场至少一分钟或直到下一次开球到期。

Some examples of a damaged robot include:
损坏机器人的一些示例包括：

- it does not respond to the ball, or is unable to move (it lost pieces, power, etc.).
它对球没有反应，或者无法移动（它失去了棋子、力量等）。
- it continually moves into the penalty area or out of bounds.
它不断进入禁区或出界。
- it turns over on its own accord.
它会自行翻转。

After a robot has been fixed, it will be placed on the unoccupied neutral spot furthest from the ball, facing its own goal.
机器人固定好后，它将被放置在距离球最远的空位，面向自己的球门。

Only the referee decides whether a robot is damaged. A robot can only be taken off or returned with the referee’s permission.
只有裁判才能决定机器人是否损坏。机器人只有在裁判允许的情况下才能被取下或归还。

If both robots from the same team are deemed damaged at kick-off, gameplay will be paused and the remaining team will be awarded 1 goal for each elapsed 30 seconds that their opponent’s robots remain damaged. However, these rules only apply when none of the two robots from the same team were damaged as the result of the opponent team violating the rules.
如果同一队伍的两台机器人在开球时都被视为受损，则游戏将暂停，其余队伍每经过 30 秒，对手的机器人仍然受损，将获得 1 个进球。但是，这些规则仅适用于来自同一团队的两个机器人均未因对方团队违反规则而受到损坏的情况。

Whenever a robot is removed from play, its motors must be turned off.
每当机器人退出游戏时，必须关闭其电机。

2.10. Human interference 2.10. 人为干扰

Except for the kick-off, human interference from the teams (e.g. touching the robots) during the game is not allowed unless explicitly permitted by a referee. Violating team(s)/team member(s) may be disqualified from the game.
除开球外，除非裁判明确允许，否则比赛期间不允许球队进行人为干扰（例如触摸机器人）。违规的团队/团队成员可能会被取消比赛资格。

The referee(s) can help robots get unstuck if the ball is not being disputed near them and if the situation was created from normal interaction between robots (i.e. it was not a design or programming flaw of the robot alone). The referee(s) will pull back the robots just enough for them to be able to move freely again.
如果球在机器人附近没有争议，并且这种情况是由机器人之间的正常交互造成的（即这不是机器人本身的设计或编程缺陷），裁判可以帮助机器人摆脱困境。裁判将机器人拉回，刚好足以让它们能够再次自由移动。

2.11. Interruption of Game 2.11. 游戏中断

In principle, a game will not be stopped.
原则上，比赛不会停止。

A referee can stop the game if there is a situation on or around the field which the referee wants to discuss with an official of the tournament or if the ball malfunctions and a replacement is not readily available.
如果场上或场外出现裁判想要与比赛官员讨论的情况，或者球出现故障并且无法随时更换，裁判可以停止比赛。

When the referee has stopped the game, all robots must be stopped and remain on the field untouched. The referee may decide whether the game will be continued/resumed from the situation in which the game was stopped or by a neutral kick-off.
当裁判停止比赛时，所有机器人必须停止并保持在场地上原封不动。裁判可以决定比赛是从比赛停止的情况下继续/恢复，还是通过中立开球。

3. ROBOTS 3. 机器人

3.1. Interference 3.1. 干扰

Robots are not allowed to be colored orange, yellow or blue in order to avoid interference. Orange, yellow, blue colored parts used in the construction of the robot must either be occluded by other parts from the perception by other robots or be taped/painted with a neutral color.
机器人不得涂成橙色、黄色或蓝色，以免受到干扰。用于构建机器人的橙色、黄色、蓝色部件必须被其他部件遮挡，使其无法被其他机器人感知，或者用胶带/涂上中性色。

Robots must not produce magnetic interference in other robots on the field.
机器人不得对现场的其他机器人产生磁干扰。

Robots must not produce visible light that may prevent the opposing team from playing when placed on a flat surface. Any part of a robot that produces light that may interfere with the opposing robot’s vision system must be covered. For Infrared-specific regulations see [Rule 6.2.2, “Infrared interference”](#)
机器人不得产生可见光，当放置在平坦的表面上时，可能会妨碍对方球队进行比赛。机器人中产生可能干扰对方机器人视觉系统的光的任何部分都必须被覆盖。有关红外线的具体规定，请参阅[规则 6.2.2, “红外线干扰”](#)

Robots are expected to be capable of dealing with any visible colors above the walls (e.g. blue, yellow, green or orange shirts) either in hardware (e.g. limiting the field of view from looking up) or in software (e.g. masking the input image).
机器人应该能够在硬件（例如限制视野向上看）或软件（例如遮罩输入图像）中处理墙壁上方的任何可见颜色（例如蓝色、黄色、绿色或橙色衬衫）。

The referee can interrupt a game in progress if any kind of interference from spectators is suspected (IR emitters, camera flashes, mobile phones, radios, computers, etc.).
如果怀疑有观众的任何干扰（红外发射器、相机闪光灯、手机、收音机、电脑等），裁判可以中断正在进行的比赛。

A team claiming that their robot is affected by the other team’s robot in any way must provide proof or evidence of the interference. Any interference needs to be confirmed by the tournament organizers if a claim is placed by the other team.
声称他们的机器人以任何方式受到另一支团队机器人影响的团队必须提供干扰的证据或证据。如果其他球队提出索赔，任何干扰都需要由比赛组织者确认。

3.2. Control & Communication

3.2. 控制与通信

The use of remote control of any kind is not allowed during the match. Robots must be controlled autonomously.
比赛期间不允许使用任何形式的遥控器。机器人必须自主控制。

For **at least at the world championships (ask other competition organizers)** ^[13] use of a Communications Module is required for referees to control the robots. See [Rule 7.1, “International Competition Specifics”](#)
至少在世界锦标赛上（询问其他比赛组织者） ^[13]，裁判需要使用通信模块来控制机器人。见[细则 7.1，“国际竞争细节”](#)

3.3. Agility 3.3. 敏捷性

Robots must be constructed and programmed in a way that their movement is not limited to only one dimension (defined as a single axis, such as only moving in a straight line). They must move in all directions, for example by turning.
机器人的构造和编程方式必须使其运动不仅限于一个维度（定义为单个轴，例如仅沿直线移动）。它们必须向各个方向移动，例如通过转弯。

3.4. Handle 3.4. 句柄

All robots must have a stable and easily noticeable handle to hold and to lift them. The handle must be easily accessible and allow the robot to be picked up from at least 5 cm above the highest structure of the robot. There must be a minimum clearance of 5 cm for hands between the highest non-handle part of the robot and the handle.
所有机器人都必须有一个稳定且易于察觉的手柄来握住和抬起它们。手柄必须易于接近，并允许从机器人最高结构上方至少 5 厘米处拾取机器人。机器人最高的非手柄部分和手柄之间必须有至少 5 厘米的手间隙。

The dimensions of the handle may exceed the robot height limitation, but the part of the handle that exceeds this limit cannot be used to mount components of the robot.
手柄的尺寸可能超过机器人高度限制，但超过此限制的手柄部分不能用于安装机器人的部件。

The weight of the robot includes that of the handle.
机器人的重量包括手柄的重量。

3.5. Top Markers 3.5. 顶部标记

A robot must have markings in order to be distinguished by the referee. Each robot must have a white plastic circle with a diameter of at least 4 cm mounted horizontally on top. This white circle will be used by the referee to write numbers on the robots using markers, therefore the white circles must be accessible and visible. The top markers do not need to be within the size limit of the robot.
机器人必须有标记才能被裁判区分。每个机器人的顶部必须有一个直径至少为 4 厘米的白色塑料圆圈水平安装。裁判将使用这个白色圆圈使用记号笔在机器人上写数字，因此白色圆圈必须是可访问和可见的。顶部标记不需要在机器人的尺寸限制范围内。

Before the game, the referee will designate the numbers for each robot and will write them on the top white circle. Robots not carrying the top white circle are not eligible to play.
比赛前，裁判会为每个机器人指定数字，并将其写在顶部的白色圆圈上。没有顶部白色圆圈的机器人没有资格参加比赛。

3.6. Violations 3.6. 违规行为

Robots that do not abide by the specifications/regulations (see [Rule 6.2, “Regulations”](#)) are not allowed to play, unless these rules specify otherwise.
不遵守规范/法规的机器人（请参阅 [细则 6.2，“条例”](#)）不允许玩，除非这些规则另有规定。

If violations are detected during a running game the team may be disqualified for that game.
如果在跑步比赛中检测到违规行为，该球队可能会被取消该比赛的资格。

If similar violations occur repeatedly, the team may be disqualified from the tournament.
如果类似违规行为屡屡发生，该队可能会被取消比赛资格。

3.7. Material specifications

3.7. 材料规格

Detailed specifications of the ball and fields can be found in the footnote ^[14].

球和场地的详细规格可以在脚注中找到 [14]。

3.8. Soccer Infrared League Ball change 2026

3.8. 2026 年足球红外联盟球的变化

Starting this year (2026), Soccer Infrared is using a new IR Ball. The key difference with this ball is the size change from 74mm to 42mm diameter, which is the same size as the Vision League golf ball.
从今年（2026 年）开始，Soccer Infrared 将使用新的红外球。与这款球的主要区别在于尺寸从直径 74 毫米变化到 42 毫米，与 Vision League 高尔夫球尺寸相同。

This ball is Open Source, so anyone can produce one from the files & instructions on the GitHub Page here: <https://github.com/robocup-junior/ir-golf-ball> .
这个球是开源的，所以任何人都可以从 GitHub 页面上的文件和说明中生成一个：<https://github.com/robocup-junior/ir-golf-ball>。

If you or someone you know can help by making or distributing balls for one or more regions the Soccer Committee is interested in helping to make that happen and listing you as a source for balls on the official website. Please get in touch via Forum, Discord or Email
如果您或您认识的人可以通过为一个或多个地区制作或分发球来提供帮助，足球委员会有兴趣帮助实现这一目标，并在官方网站上将您列为球的来源。请通过论坛、Discord 或电子邮件与我们联系

Entry Leagues will continue to use the large infrared ball. [15]
入门联赛将继续使用大型红外球。 [15]

3.9. Tournament balls 3.9. 锦标赛用球

Balls for the tournament must be made available by the tournament organizers. Tournament organizers are not responsible for providing balls for practice.
比赛的用球必须由比赛组织者提供。赛事组织者不负责提供练习用球。

4. CODE OF CONDUCT

4. 行为准则

4.1. Fair Play 4.1. 公平竞争

It is expected that the aim of all teams is to play a fair and clean game of robot soccer. It is expected that all robots will be built with consideration to other participants.
预计所有球队的目标都是进行公平、干净的机器人足球比赛。预计所有机器人的制造都将考虑到其他参与者。

Robots are not allowed to cause deliberate interference with or damage to other robots during normal gameplay.
机器人在正常游戏过程中不得故意干扰或损坏其他机器人。

Robots are not allowed to cause damage to the field or to the ball during normal gameplay.
在正常游戏过程中，机器人不得对场地或球造成伤害。

A robot that causes damage may be disqualified from a specific match at the tournament organizer’s discretion.
造成损坏的机器人可能会被取消特定比赛的资格，由锦标赛组织者自行决定。

Humans are not allowed to cause deliberate interference with robots or damage to the field or the ball.
人类不得故意干扰机器人或损坏场地或球。

5. CONFLICT RESOLUTION 5. 冲突解决

5.1. Referees 5.1. 裁判

The referee(s) are in charge of making decisions with regards to the game, according to these rules.
根据这些规则，裁判负责做出有关比赛的决定。

During gameplay, the decisions made by the referee(s) are final.
在游戏过程中，裁判做出的决定是最终决定。

Only the team member(s) at the table have a mandate to freely speak to the referee(s).
只有桌上的团队成员才有权与裁判自由交谈。

At the conclusion of the game the results become final with signatures from both teams. Disputes need to be settled before signing.
比赛结束后，结果最终确定，并有两支球队的签名。争议需要在签署前解决。

5.2. Rule clarification 5.2. 规则澄清

Rule clarification may be made by members of the tournament organizers and the Soccer League Committee, if necessary even during a tournament.
如有必要，即使在比赛期间，锦标赛组织者和足球联赛委员会的成员也可以澄清规则。

5.3. Rule modification 5.3. 规则修改

If special circumstances, such as unforeseen problems or capabilities of a robot occur, rules may be modified by the tournament organizers, if necessary even during a tournament.
如果出现特殊情况，例如不可预见的问题或机器人的能力，比赛组织者可能会修改规则，必要时即使在比赛期间也是如此。

5.4. Competition specifics 5.4. 比赛细节

Each competition (from local to international) may have adapted rules and added specifics (scoring, interviews, tournament modes, rule variations etc.). Check with organizers of each tournament you participate in.
每场比赛（从本地到国际）都可能调整规则并添加细节（评分、面试、比赛模式、规则变化等）。请咨询您参加的每场比赛的组织者。

6. LEAGUE REGULATIONS 6. 联赛规则

6.1. Preamble 6.1. 序言

For RoboCupJunior, there are two sub-leagues: Soccer
对于 RoboCupJunior，有两个子联赛：足球

Infrared^[16] and Soccer Vision^[17]
红外线^[16] 和足球视觉^[17]

The matches in the Soccer Vision^[18] sub-league are conducted using a (passive) orange golf ball, whereas the matches in the Soccer Infrared^[19] sub-league are played using the (also orange) IR ball.^[20]
足球愿景^[18]中的比赛子联赛使用（被动）橙色高尔夫球进行，而 Soccer Infrared^[19] 子联赛中的比赛使用（也是橙色的）红外球。^[20]

6.2. Regulations 6.2. 法规

6.2.1. Dimensions 6.2.1. 尺寸

Robots will be measured in an upright position with all parts extended. A robot’s dimensions must not exceed the following limits:
机器人将在直立位置进行测量，所有部件都伸展。机器人的尺寸不得超过以下限制：

sub-league 子联赛	Soccer Vision ^[21] 足球愿景 ^[21]	Soccer Infrared ^[22] 足球红外线 ^[22]
size [0] 尺寸 [0]	18.0 cm 18.0 厘米	22.0 cm 22.0 厘米
height 高度	18.0 cm 18.0 厘米	22.0 cm 22.0 厘米
weight 重量	No limit 无限制	1500g ^[23] 1500 克 ^[23]
ball-capturing zone 捕球区	1.5 cm 1.5 厘米	1.5 cm ^[24] 1.5 厘米 ^[24]

[0] Robot must fit smoothly into a cylinder of this diameter. Being 3mm below the size limit and 50g below the weight limit will usually make inspections go more smoothly.
[0] 机器人必须顺利装入该直径的圆柱体中。 低于尺寸限制 3 毫米和低于重量限制 50 克通常会检查更加顺利。

Ball-capturing zone is defined as any internal space created when a straight edge is placed on the protruding points of a robot. This means the ball must not enter the convex hull of a robot by more than the specified depth. Furthermore, it must be possible for another robot to take possession of the ball.
抓球区定义为在机器人的突出点上放置直尺时产生的任何内部空间。这意味着球进入机器人凸壳的深度不得超过指定深度。此外，必须有可能让另一个机器人控球。

6.2.2. Infrared interference 6.2.2. 红外干扰

Components designed to emit IR (e.g. ToF, LiDAR, IR distance sensors, IR LEDs/LASERs etc.) are not allowed and tournament organizers will require such devices to be removed or covered up.
不允许使用设计用于发射红外线的组件（例如 ToF、LiDAR、红外距离传感器、红外 LED/激光器等），比赛组织者将要求移除或遮盖此类设备。

6.2.3. Limitations 6.2.3. 限制

A robot may use any number of cameras without restrictions on lenses, optical parts, optical systems, and total field of view. Components may be sourced in any way the team sees fit.
机器人可以使用任意数量的相机，而不受镜头、光学部件、光学系统和总视野的限制。组件可以以团队认为合适的任何方式采购。

Kicker strength is subject to compliance check at any time during the competition. During gameplay, a referee can **test the kicker power** ^[25] on the field before each half when a damaged robot is returned to the field or when the game is about to be restarted after a goal. See [Appendix A, Kicker Power Measuring Procedures](#) for more details.

踢球者的力量在比赛期间随时接受合规检查。在比赛过程中，裁判可以在每半场之前测试踢球力量 ^[25]，当受损的机器人返回场上或进球后比赛即将重新开始时。有关更多详细信息，[请参阅附录 A，踢球功率测量程序](#)。

6.2.4. Inspections 6.2.4. 检查

Robots must be inspected and certified every day before the first game is played. The tournament organizers may request other inspections if necessary, including random inspections which may happen at any time.

在进行第一场比赛之前，必须每天对机器人进行检查和认证。如有必要，比赛组织者可能会要求进行其他检查，包括随时可能发生的随机检查。

7. INTERNATIONAL COMPETITION

7. 国际比赛

7.1. International Competition Specifics

7.1. 国际比赛细节

At the international competition (for others ask organizers) the Soccer League Committee will provide each team with a Communication Module. This allow for easier co-ordination of games and referee control of robots during matches. Each team will be expected to interface with this module using a single 2.54mm GPIO pin at present to start and stop the robots. The Soccer League Committee plans on extending this to using UART for more complex applications in future years. Please see the GitHub page for more information on the module: <https://github.com/robocup-junior/soccer-communication-module>

在国际比赛中（其他人询问组织者）足球联赛 委员会将为每个团队提供一个沟通模块。这允许 比赛期间更容易协调比赛和裁判控制机器人。每 团队将使用单个 2.54 毫米 GPIO 与该模块连接 引脚以启动和停止机器人。足球联盟委员会计划 关于将其扩展到将来将 UART 用于更复杂的应用程序 年。有关该模块的更多信息，请参阅 GitHub 页面：<https://github.com/robocup-junior/soccer-communication-module>

The module itself may exceed the maximum height of the robot. It must be placed at least 1cm away from the outside and protected from impact damage.

模块本身可能会超过机器人的最大高度。它必须放置在距离外部至少 1 厘米的地方，并防止撞击损坏。

7.2. Interviews 7.2. 采访

During the international competition, the tournament organizers may arrange to interview teams during the Setup Day of the event. This means that the teams need to be already present early on this day.

在国际比赛期间，赛事主办方可能会安排在赛事的筹备日期间进行队伍面试。这意味着团队需要在这一天早些时候就已经到场。

Details on what is required for and what to expect from interviews can be found in the scoring document available here ^[26].

有关面试的要求和期望的详细信息，请参阅此处提供的评分文件 ^[26]。

The Soccer League Committee recommends the implementation of interviews in regional competitions as well, but this is not mandatory. Teams should check with tournament organizers if they hold interviews and if so and what kind of interview to expect.

足球联盟委员会也建议在地区比赛中实施面试，但这不是强制性的。团队应与比赛组织者核实他们是否进行面试，如果进行面试，以及期待什么样的面试。

7.3. Technical Challenges

7.3. 技术挑战

Inspired by the major leagues and the need for further technological advancement of the leagues, the Soccer League Committee runs what are called Technical Challenges. New challenges are added each year, and are unknown until during the International Competition.

受到大联盟和联盟进一步技术进步的需要的启发，足球联盟委员会开展了所谓的技术挑战赛。每年都会增加新的挑战，直到国际比赛期间才为人所知。

The idea of these challenges is to give the teams an opportunity to show off various abilities of their robots which may not get noticed during the regular games. Furthermore, the Soccer League Committee envisions these challenges to be a place for testing new ideas that may make it to the future rules, or otherwise shape the competition.

这些挑战的想法是让团队有机会展示他们的机器人的各种能力，而这些能力在常规比赛中可能不会被注意到。此外，足球联盟委员会将这些挑战设想为一个测试新想法的地方，这些想法可能会被纳入未来的规则，或者以其他方式影响比赛。

Any RoboCupJunior Soccer team will be eligible to try to tackle these challenges.

任何 RoboCupJunior 足球队都有资格尝试应对这些挑战。

7.4. Further information on International Competition

7.4. 有关国际竞赛的更多信息

All teams qualified to the international competition must share their designs, both hardware and software, with all present and future participants. These teams are also required to send a digital portfolio before the competition. Further details on how will be provided by the Soccer League Committee which acts as the tournament organizers for the international competition.

所有有资格参加国际竞赛的团队都必须与所有现在和未来的参赛者分享他们的硬件和软件设计。这些团队还需要在比赛前发送数字作品集。有关如何作的更多详细信息将由作为国际比赛赛事组织者的足球联赛委员会提供。

During the competition days of the international competition (as well as before the event) the team members are responsible for checking all relevant information published by the Soccer League Committee or any other RoboCup official.

在国际比赛的比赛日（以及赛事前），团队成员有责任查看足球联盟委员会或任何其他 RoboCup 官员发布的所有相关信息。

There will also be a SuperTeam competition, in which various teams from around the world share their robots in one "SuperTeam" and play against other SuperTeams on a so called "Big Field". Teams could utilise different camera lenses or sensors optimised for the larger playing fields to improve their performance. The full rules of this challenge can be found at https://robocup-junior.github.io/soccer-rules/master/superteam_rules.html or https://robocup-junior.github.io/soccer-rules/master/superteam_rules.pdf 还将举办一场超级团队比赛，来自世界各地的各种团队参加 全世界在一个“超级团队”中分享他们的机器人，并与其他机器人对战 超级团队在所谓的“大场地”上。团队可以使用不同的相机 针对更大的比赛场地进行了优化的镜头或传感器，以改善其 性能。此挑战的完整规则可以在以下位置找到：https://robocup-junior.github.io/soccer-rules/master/superteam_rules.html 或 https://robocup-junior.github.io/soccer-rules/master/superteam_rules.pdf

Teams competing in the international competition can receive awards for their performance. These awards are decided and introduced by the Soccer League Committee, which publishes all necessary details well before the actual event. ^[27] 参加国际比赛的团队可以因其 性能。这些奖项由足球联盟决定和推出 委员会，该委员会在实际事件发生之前就公布了所有必要的细节。 ^[27]

8. ENTRY LEAGUE 8. 入门联赛

In order to help newcomers experience the RoboCupJunior Soccer competition, the Soccer League Committee would like to encourage competitions to include a so called "Entry League". Although such a league will not be part of the international competition, it is run in many regions and at the SuperRegional competitions (RoboCupJunior SuperRegional Americas, EMEA (Europe, Middle East, Africa) and RoboCup Asia Pacific). To this end, the Soccer League Committee has prepared a suggested ruleset. ^[28] Some regional and super-regional competitions already have rulesets and will likely make changes to the suggested rulesets or replace them entirely for their events. ^[29] Teams should ask their local/regional/super-regional tournament organizers for details on what Entry leagues (if any) will be running in their region. 为了帮助新人体验 RoboCupJunior Soccer 比赛，足球联赛委员会希望鼓励比赛包括所谓的“入门联赛”。虽然这样的联赛不会成为国际比赛的一部分，但它在许多地区和超级地区比赛（RoboCupJunior SuperRegional Americas、EMEA（欧洲、中东、非洲）和 RoboCup Asia Pacific）中进行。为此，足球联盟委员会准备了一套建议的规则集。 ^[28] 一些区域和超区域比赛已经制定了规则集，并且很可能会 更改建议的规则集或完全替换它们以用于其事件。 ^[29] 团队应向当地/区域/超区域锦标赛组织者询问 有关其所在地区将举办哪些入门联赛（如果有）的详细信息。

Appendix A: Kicker Power Measuring Procedures 附录 A：踢球功率测量程序

All robot kickers will be tested with the tournament ball used in the sub-league they participate in. Kicker Power will be measured by means of an on-field test. The bounce off the walls can change depending on field construction. Teams should make sure they can adjust the power of their kicker if necessary. 所有机器人踢球者都将使用他们参加的子联赛中使用的锦标赛用球进行测试。踢球功率将通过现场测试来衡量。从墙壁上的反弹可能会根据场结构而变化。球队应确保他们可以在必要时调整踢球者的力量。

The test is performed as follows:
测试执行如下：

1. Place robot inside a goal with the robot touching the back goal wall.
将机器人放入球门内，让机器人接触后球门墙。
2. Perform a kick into the opposing goal
踢向对方球门
3. The kick power test is passed if after bouncing off the opposite goal the ball does not hit the back wall of the goal the robot performed the kick power test from.
如果球从对面球门弹起后，球没有击中机器人进行踢球力测试的球门后墙，则通过踢球力测试。
